Volume 4 Issue 1

The Right Funds at the Right Time

January 2009

December Performance

The *Top Eight Model Portfolio* finally broke its run of negative returns in December. Gold had a phenomenal one-month gain of 26.98%, Leisure and Biotechnology gained 10.94% and 8.50%, Pharmaceuticals, Environmental, and Medical Equipment & Systems all gained over 5%, Consumer Staples gained 3.04%, and Utilities Growth lagged with a loss of 2.11%, for a net one-month gain of 8.996% for the *Top Eight Model Portfolio*, just a little short of making the *Top Eight Model Portfolio's* Ten Best Months list.

The S&P 500 tracking portfolio, *Top Eight Model Portfolio*, and Nasdaq Composite tracking portfolio 2008 final returns are (37.047)%, (37.882)%, and (40.041)%, respectively.

Final Performance of Funds Sold on December 3

Fundranker exchanged four funds on December 3. Here are the returns they contributed to the *Top Eight Model Portfolio*:

Fund	Bought	Sold	Return
Air Transportation (FSAIX)	11/3/2008	12/3/2008	(17.50)%
Banking (FSRBX)	11/3/2008	12/3/2008	(18.03)%
Retailing (FSRPX)	9/2/2008	12/3/2008	(32.53)%
Transportation (FSRFX)	11/3/2008	12/3/2008	(14.61)%

Is it time to reinvest?

The *Fundranker* system does not try to predict what may happen in the short term. Using past performance, it attempts to position you advantageously for whatever may happen. Using the *Fundranker* system, you don't have to make emotional decisions each month on whether to stay in the market or not or get back in or not. More often than not, emotional investment decisions lead to worse results than sticking with a sound system like *Fundranker*.

Be that as it may, did you move some or all of your investments to cash recently because of the recent downturn, the worst since the 1930's Depression? If you did, you weren't alone, by any means. The question now is when should you reinvest your cash in *Top Eight Model Portfolio* funds?

December turned out good for the market and even better for *Fundranker*, and we all hope that recovery will continue in 2009, but should you reinvest in January? Unfortunately, if you moved to cash, that is a decision only you can make. Perhaps you should think of your reinvestment decision the same as if you were investing in *Top Eight Model Portfolio* funds for the first time. No matter which month you decide to reinvest, just as when you first invested using the *Fundranker* system, *Fundranker* will begin to position you advantageously for whatever happens.

One thing we can and do say here at *Fidelity Select Fundranker* is that despite the recent downturn, our *Top Eight Model Portfolio* still has better long term performance than the S&P 500 and the Nasdaq Composite indices, and we have confidence in future long term results for the *Fundranker* system.

Holding Period Alert

If you purchased shares after December 3 of any funds which are being exchanged on January 2, then to avoid roundtrip transactions under Fidelity's frequent trading policy for Select funds, you should wait at least 30 days before exchanging the funds.

Investing New Money

If you are a new subscriber, or you have new money to invest

using the *Fundranker* system, first put the new money into Select Money Market. To reduce exposure to roundtrip transactions, on the next *Invest New Money Date* (see box below), exchange your new money into the funds in the *Top Eight Model Portfolio* for that month.

New subscribers should allocate equal amounts to each of the eight funds. If you already have a portfolio of Top Eight funds, allocate new money only to funds that are not being exchanged on January 2. Allocate it to balance those funds as much as possible. When you make exchanges the following month, be careful to avoid roundtrip transactions.
