The Right Funds at the Right Time

October 2009

September Performance

The stock market hit new rally highs through the first half of September and then tapered off. Technology and Computers had the largest one-month gains for *Top Eight Model Portfolio* funds at 8.2% and 7.8%, respectively. Brokerage & Investment Management, Electronics, Automotive, Financial Services, Insurance, and Banking followed with one-month gains ranging from 4.5% to 1.9%, giving the *Top Eight Model Portfolio* a one-month gain of 5.718%. The *Top Eight Model Portfolio* now has made gains for seven months in a row.

The Nasdaq Composite tracking portfolio, the S&P 500 tracking portfolio, and the *Top Eight Model Portfolio* 2009 YTD returns are 35.252%, 19.326%, and 18.411%, respectively.

Final Performance of Funds Sold on September 4

Fundranker exchanged three funds on September 4. Here are the returns the three funds contributed to the *Top Eight Model Portfolio*:

Fund	Bought	Sold	Return
Communications Eqpt (FSDCX)	5/4/2009	9/4/2009	16.50%
Materials (FSDPX)	8/5/2009	9/4/2009	(0.29)%
Retailing (FSRPX)	8/5/2009	9/4/2009	7.25%

Fundranker's Move into Financials Short Lived

In September, *Fundranker* bought three financial sector funds, Banking, Financial Services, and Insurance. For the month of September, the *Top Eight Model Portfolio* held four of Fidelity's five financial sector Select funds, giving it a very strong financial weighting. Despite the fact that these three new funds gained 1.90%, 2.50%, and 2.45%, respectively, from August 31 to September 30, they still fell out of the Top Eight funds for October, giving the *Top Eight Model Portfolio* a more diverse stance for October.

Consumer Confidence Falls Slightly

The Conference Board reported Tuesday that its Consumer confidence Index fell from 54.5 in August to 53.1 in September, below the 57 reading economists were expecting, significantly below a reading of 90 that would indicate the economy is on solid footing, but significantly higher than its historic low of 25.3 in February.

The Conference Board's current assessment subindex of consumer confidence fell from 25.4 in August to 22.7 in September, but its forward looking subindex of consumer confidence fell only slightly from 73.8 in August to 73.3 in September.

While far from being healthy, it appears that consumer confidence is making a reasonably steady and sustained recovery. Perhaps this trend in consumer confidence portends the beginning of slow but sustained economic recovery from the Great Recession of 2008.

September Surge

Yardeni Research reports that, going back to 1926, September is the only month with a negative average market return. Bucking that long-term average, the S&P 500 Index rose 11 and the Nasdaq Composite Index rose 12 of 21 business days in September this year. *Fundranker's Top Eight Model Portfolio*, the Nasdaq Composite tracking portfolio, and the S&P 500 tracking portfolio gained 5.718%, 5.697%, and 3.738%, respectively, during September.

Holding Period Alert

If you purchased shares after September 4 of any funds which are being exchanged on October 5, then to avoid roundtrip transactions under Fidelity's frequent trading policy for Select funds, you should wait at least 30 days before exchanging the funds.

Investing New Money

If you are a new subscriber, or you have new money to invest using the *Fundranker* system, first put the new money into Select Money Market. To reduce exposure to roundtrip transactions, on the next *Invest New Money Date* (see box below), exchange your new money into the funds in the *Top Eight Model Portfolio* for that month.

New subscribers should allocate equal amounts to each of the eight funds. If you already have a portfolio of Top Eight funds, allocate new money only to funds that are not being exchanged this month to balance those funds as much as possible.
