Volume 2 Issue 5

"Invest in the right funds at the right time!"

May 2007

April Performance

Our four new funds, Energy Service, Energy, Natural Gas, and Natural Resources led the Top Eight Model Portfolio funds with one-month returns from 7.7% to 5.9%, respectively. Utilities Growth, Materials, Telecommunications, and Chemicals followed with one-month gains from 4.1% to 1.6%, respectively.

The Top Eight Model Portfolio, Nasdaq tracking portfolio, and S&P 500 tracking portfolio 2007 YTD returns are 4.520%, 4.785%, and 5.073%, respectively.

April's exchange was the seventh and last in this series of migrated exchange dates due to avoiding *roundtrip* transactions. As you can see, it did cause us to miss out on some gains this month and dropped Fundranker's 7-month actual gain below what would have been made with the earlier exchange dates Fundranker would have used without Fidelity's *roundtrip* transaction rule:

Month	Exchange Date	Actual Return	Earlier Exchange Date	Earlier Return
4/07	4/12/2007	2.835%	4/3/2007	4.778%
7-months		8.034%		9.425%

Rebalancing Your Funds

Fundranker research indicates that keeping the values of your eight funds balanced offers the best long-term performance for your portfolio. Rebalancing has to be done with an eye to avoiding *roundtrip* transactions discouraged by Fidelity's frequent trading policy for Select funds, however, so it is best to rebalance on the second day of a month when the first trading day on or after the second day of the next month is at least 31 days later. Consider rebalancing your accounts on May 2, July 2, August 2, October 2, and November 2 in 2007.

If your funds are in nontaxable accounts, such as IRAs, rebalance on as many of the above dates as you wish. If you have taxable accounts, however, rebalancing exchanges generally involve taxable gains, so you should weigh your tax consequences against having a better balanced position. You may wish to rebalance taxable funds only when they fall out of the Top Eight Model Portfolio and their gains will be realized anyway.

Here is an easy method to rebalance your eight funds:

1. Divide the total value of your eight funds by eight to find your goal amount for each fund.
2. Check the value of each fund you have held longer than one month, including any that just fell out of the Top Eight Model Portfolio, to see if any exceed the goal amount. These are the only funds *from which* you should make balancing exchanges.
3. Check the value of your funds which did *not* fall out of the Top Eight Model Portfolio (you won't be exchanging them) to see if any are less than your goal amount. These are the only funds *to which* you should make balancing exchanges.
4. For May, after 4pm ET on May 1, or before 4pm ET on May 2, exchange *from* the funds you determined in step 2 *to* the funds you determined in step 3 to balance them. The smallest exchange amount Fidelity allows is \$250.

You may be unable to completely rebalance your funds in any particular month, but your funds at least will be closer to being balanced. You can rebalance periodically using this method to keep your funds close to being balanced.

New Subscriber Info

If you are a new subscriber, set up a Fidelity account at fidelity.com and put whatever funds you plan to invest (at least \$24,000 for joint, individual, or IRA accounts, or \$4,800 for SEP-IRA

or Keogh accounts) into Select Money Market. To minimize your exposure to *roundtrip* transactions discouraged by Fidelity's frequent trading policy for Select funds, don't wait for the next exchange date to invest. Instead, on the first business day of the next month, exchange equal amounts into the funds in the Top Eight Model Portfolio for that month. When you make exchanges the following month, be careful to wait 31 days to avoid *roundtrip* transactions, as described next in *Holding Period Alert*.

Holding Period Alert

If you purchased shares on or after April 2 of a fund which is being exchanged on May 2, then to avoid a *roundtrip* transaction frowned on by Fidelity's frequent trading policy for Select funds, you should delay exchanging that particular fund until the first business day on or after 31 days after your purchase. If that date is after May 11, to get back in synch with Fundranker exchange dates, consider holding the fund and making an appropriate exchange on June 1 to a fund in the Top Eight Model Portfolio for June. Keep track of any delayed exchange dates for use the following month. Don't delay exchanging a fund purchased before April 2, as it will be easier to exchange it the next month without a *roundtrip* transaction, should that be necessary.

Subscribe to Fidelity Select Fundranker

You can subscribe to *Fidelity Select Fundranker* for \$99/year. For this fee, you will receive 12 issues of the *Fidelity Select Fundranker* newsletter via email on or before the first day of each month. You also will receive an email in advance of each issue to alert you to the upcoming issue and the likelihood of the possible exchange dates, so that you can plan ahead for your exchanges. If an exchange date is more than a few days after the newsletter is emailed, you also will receive an exchange reminder email. *Fidelity Select Fundranker* has a website, www.fundranker.com, with much historical information about the *Fidelity Select Fundranker* system, but subscribing to the newsletter is the only way to get timely notice of the monthly exchanges. To subscribe, send a check for \$99 to Fidelity Select Fundranker, 39 Southchase Dr, Fletcher, NC 28732. Please include your name, snail mail address, and email address.
