Volume 4 Issue 3

The Right Funds at the Right Time

March 2009

## February Performance

With the market still struggling in the midst of the worst downturn since the Great Depression, the Nasdaq Composite, the S&P 500, and the *Top Eight Model Portfolio* all continued their poor start for 2009. *Top Eight Model Portfolio* funds had one-month losses ranging from 1.45% for Gold to 15.64% for Medical Delivery. The *Top Eight Model Portfolio's* February loss of 9.776% made number 7 on its *Ten Worst Months* list at right.

The Nasdaq Composite tracking portfolio, *Top Eight Model Portfolio*, and S&P 500 tracking portfolio 2009 YTD returns are (12.470)%, (16.829)%, and (18.177)%, respectively.

## Final Performance of Funds Sold on February 2

*Fundranker* exchanged four funds on February 2. Here are the returns they contributed to the *Top Eight Model Portfolio*:

Fund	Bought	Sold	Return
Air Transportation (FSAIX)	1/2/2009	2/2/2009	(21.07)%
Construction & Housing (FSHOX)	1/2/2009	2/2/2009	(14.68)%
Leisure (FDLSX)	12/3/2008	2/2/2009	2.29%
Retailing (FSRPX)	1/2/2009	2/2/2009	(10.90)%

## Fundranker Moves Strongly into Technology

*Fundranker* is backing somewhat off last month's move into health care, selling two of its five health care funds, and it is exchanging into three technology funds on March 4: Telecommunications, Wireless, and IT Services. They are three of only four Select funds which did not lose value in February. *Fundranker* also is exchanging back into the fourth fund which did not lose value in February, Retailing, which has been in the *Top Eight Model Portfolio* on and off since last September.

## GDP Declines Sharply

The Commerce Department revised its estimate of the change in our gross domestic product for the fourth quarter of 2008 to a drop of 6.2%. A month ago, the Commerce Department had pegged the drop for the fourth quarter at 3.8%, so this revision was significant.

This latest data show the recession that began in December 2007 deepened last quarter. Projections of a drop of nearly 5% in GDP for this quarter show little chance of any near-term relief. That would be the first time since 1947 that GDP drops 4%+ for two consecutive quarters. Perhaps GDP will begin to recover later in 2009 when the \$787 billion economic stimulus plan begins to have an impact.

## Holding Period Alert

If you purchased shares after February 2 of any funds which are being exchanged on March 4, then to avoid roundtrip transactions under Fidelity's frequent trading policy for Select funds, you should wait at least 30 days before exchanging the funds.

## Investing New Money

If you are a new subscriber, or you have new money to invest using the *Fundranker* system, first put the new money into Select Money Market. To reduce exposure to roundtrip transactions, on the next *Invest New Money Date* (see box at right), exchange your new money into the funds in the *Top Eight Model Portfolio* for that month.

New subscribers should allocate equal amounts to each of the eight funds. If you already have a portfolio of Top Eight funds, allocate new money only to funds that are not being exchanged on March 4. Allocate it to balance those funds as much as possible.
